About the Conference

Unlock a unique blend of global innovation and local expertise. We've handpicked our faculty and scientific content to tackle your toughest clinical dilemmas, ensuring every session provides maximum relevance for neurology, neurosurgery & allied branches.

We have integrated the collective experience of a world-class faculty into a program designed to maximize the clinical utility of recent developments in **Neurology & Neurosurgery**. These interactive learning experiences are curated to elevate your clinical decision-making and advance your practice to the next level.

About MedBel

MedBel Global Healthcare & Research Foundation is a Section 8, not-for-profit organization established in 2025, dedicated to advancing medical and healthcare education, driving impactful research, and improving access to quality healthcare for underserved communities. Our mission is to empower healthcare professionals with continuous learning opportunities, foster global knowledge exchange, and deliver compassionate medical support to those who need it the most.
